

I think that K-love has served the community of Ames, by bringing good wholesome music to the many "young" familys. If K-Love were to be replaced by an LPFM station, people across Ames, and across the world would be met with depression, and a general sadness because they'd no longer have that acces to good christian music. I think that K-love is int the publics intrest because it keeps people healthy mentally, physically, and spiritually.
